

Obtaining and Submitting Legible Fingerprints from Deceased Individuals

Quick Reference Guide

Unknown deceased individuals can be identified rapidly using their fingerprints. This document offers postmortem fingerprint guidance:

- *Postmortem fingerprint collection*
- *Training for legible fingerprint collection*
- *When to submit*
- *What to submit/retain*
- *How to submit*
- *Additional assistance*

Collecting Postmortem Fingerprints

FBI's Laboratory Division Video Series

<https://fbibiospecs.fbi.gov/video-repository>

- Postmortem printing
- Tissue builder techniques
- Photography of friction ridge
- Postmortem palm printing
- Degloving method
- Boiling rehydration method
- Casting techniques
- And more

When to Submit

- Submit fingerprints for active or newly opened cold cases to the state's fingerprint based system, the Next Generation Identification (NGI) System, and the National Missing and Unidentified Persons System (NamUs) as soon as possible.
- Determine if the fingerprints for cold cases previously were submitted to the NGI System by contacting the Special Processing Center (SPC). *(All contact information located on back page.)*
- Consider recurring submission as search algorithms may improve over time.
- Determine whether fingerprints have been submitted to NamUs by contacting the Regional Program Specialist at NamUs.

What to Submit/Retain

- **Submission**
 - Presumed name(s)
 - Date of birth
 - Fingerprint data.
- **Retention**
 - Presumed Names
 - FBI Universal Control Number **and** Date Submitted
 - NamUs Case Number **and** Date Submitted
 - Medical Examiner Case **and** Date Submitted
 - Originating Agency Point of Contact
 - Originating Agency Identifier
 - Controlling Agency Identifier
 - National Crime Information Center (NCIC) Number
 - Missing Person File Queried Date
 - Unidentified Person File Queried Date
 - NCIC Offline Search Request Date

How to Submit

- **Submit to the state's fingerprint-based system.**
 - Use the Unknown Deceased (DEU) and Known Deceased (DEK) types of transactions (TOT) (if programmed).
 - Use the DEU when name is not available.
 - Use the DEK when you have a presumed name.
 - Submit as Type-14 records (as described in [ANSI/NIST-ITL 1-2011](#))¹ as these provide valuable information for troubleshooting.
 - If the state is not programmed for DEU and DEK TOTs or submissions, contact the state's repository for a manual fingerprint search.
 - Submit to a state Missing and Unidentified Persons Clearinghouse, if available.
- **Submit to the NGI System.**
 - Submit from the state as a DEU or DEK (if programmed).
 - Submit to the FBI's SPC (if not programmed for DEU or DEK).
 - Submit photos of casts/three-dimensional impressions to SPC.
 - Use common file format (.pdf, .tif, etc.).
 - Use minimum resolution of 500 pixels per inch.
 - Fax using ultrafine/superfine resolutions and use direct import for best resolution.
- **Submit to the NamUs.**
 - Drag and drop—If listed as a case contributor on the case, you can drag and drop the fingerprint card into the NamUs case file.
 - Digitize and upload fingerprints to send via email.
 - Submit hard copy cards via mail.
 - Coordinate with your NamUs Regional Program Specialist for submission.
